

# Certificate

**Fannie Malala**

has successfully participated in the following training

## **„Hazard Identification and Risk Assessment“** from November 1st through 3rd, 2016

With this training the participant was made sensitive to identify hazards and to evaluate related risks at workplaces. The participant is able to participate in a risk evaluation process as described in the Freudenberg Safety Standard 10 (FSS 10).

### Content of the training:

- ▶ Objectives and benefits of risk assessment
- ▶ Terms and definitions
- ▶ Demonstration-model “How accidents occur”
- ▶ Hazard factors
- ▶ Types of risk assessments
- ▶ Work systems and workplaces
- ▶ Risk control measures (S\_T\_O\_P)
- ▶ Responsibility and participation
- ▶ Risk evaluation process / assessment criteria / decision-making-process
- ▶ GHS-System / hazardous substances – risk assessment
- ▶ Interactive risk assessment for manual handling tasks
- ▶ The action steps of risk assessment
- ▶ Practical exercises and presentations of results

The trainers,

**Wolfgang Kissel**  
FCO – Corporate HSE

**Ulrich Freund**  
FCO – Corporate HSE
